WORK EXPERIENCE

Freelance Full-Stack Developer

Nehemiah Technologies – New Nyanya | 2023 – Present

- Delivered 6+ mobile and web apps for startups/SMEs, achieving 100% client satisfaction and 70% repeat contracts.
- Built Flutter Web dashboards with analytics, tables, and role-based access, improving usability for business owners.
- Integrated Firebase (Auth, Firestore, Push Notifications), cutting backend costs for clients by 30%.
- Optimized UI/UX with Material Design principles and performance tweaks, improving load speed by 20%+.
- Automated CI/CD with GitHub Actions and Codemagic, enabling seamless Play Store deployments.

Cybersecurity Intern

Revenue Mobilization and Fiscal Commission – Abuja | Mar 2025 – Aug 2025

- Conducted vulnerability assessments and penetration tests, identifying 15+ critical risks.
- Assisted in incident response, reducing average detection-to-response time by 25%.
- Researched IoT device security and simulated penetration testing labs, strengthening organizational defenses.
- Produced detailed security reports with remediation strategies, presented to senior management.

EDUCATION

B.Sc. Cybersecurity

Bingham University, Karu | Oct. 2022 – August 2026

PROJECT

Fit4Force (AI-Powered Military Prep App) | 2025

- Built a **cross-platform Flutter app for Nigerian military aspirants** (Navy, Air Force, Army, Police, etc.).
- Integrated AI-driven quizzes, fitness tracking, and recruitment alerts to enhance preparation.
- Added community features for **mentorship and collaboration**.
- Implemented a freemium model with **premium features like AI career path advisor** and virtual interviews.

FridgeFixer (Smart Appliance Repair App) | 2024

- Developed a **mobile-first app linking users with verified fridge technicians on-demand**.
- **Integrated Firebase Auth, location services, chat, and push notifications**.
- Added ratings & reviews to improve trust and service quality.
- Deployed to Android with a secure booking system and real-time updates.

Suimerce (Multi-Vendor E-Commerce Website) | 2024

- Designed and developed a **multi-vendor e-commerce platform using WordPress + Elementor**.
- Enabled vendors to register, manage products, and process payments.
- Integrated secure checkout, **responsive design, and vendor dashboards**.
- Improved shopping experience with custom filters and product search.

IoT Security Lab (Cybersecurity Project) | 2025

- Simulated penetration testing of IoT **devices with Kali Linux, Metasploit, and Wireshark**.
- Discovered and documented **15+ vulnerabilities**.
- Proposed **security hardening strategies for IoT networks**.

SKILLS

- Mobile & Web Development: Flutter (iOS/Android/Web), Dart, Firebase, Wordpress, Supabase, SQLite, Responsive UI, Elementor.
- Cybersecurity: Penetration Testing, Vulnerability Assessment, Incident Response, Forensics, SIEM, IDS/IPS
- Programming & Tools: Python, JavaScript, HTML/CSS, Git/GitHub, Linux, Wireshark, Metasploit, Nmap
- Soft Skills: Communication, Team Collaboration, Adaptability, Problem Solving

CERTIFICATIONS

- Cybersecurity Professional Certificate – Bingham University (2026)
- Introduction To Digital Forensics – Bingham University (2024)
- Flutter & Dart – Udemy (2024)
- Networking Security – Cisco Networking Academy (2025)

ACHIEVEMENTS

- Built 6+ cross-platform apps (Flutter mobile & web) with 100% positive client feedback.
- Identified and documented critical IoT vulnerabilities during internship security research
